

HIT 'EM FOR HEMOPHILIA GOLF TOURNAMENT

Recognized as one of the premier charity golf events in the United States, the annual Hit 'Em for Hemophilia golf tournament has raised millions to find better treatments and a cure. Over the years, treatment has improved. We won't stop until we find a cure.

TROT TO CLOT RUN & WALK EVENTS

The Trot to Clot Run & Walks are fun, family-friendly events that raise money for Camp Wannaklot, Georgia's only camp dedicated to children with bleeding disorders.

HOPS FOR HEMOPHILIA

Hops for Hemophilia is a fall fundraiser for bleeding disorders research. Held at a local brewery, the event is an afternoon full of beer, BBQ, and bonding. It's a great opportunity for those who support Georgia's bleeding disorders community to connect while funding vital research for a cure!

ABOUT US

Hemophilia of Georgia is a nonprofit organization that helps people who have hemophilia, von Willebrand Disease, or another inherited bleeding disorder. We work to improve the lives of the people we serve. We raise money to help families and to find a cure.

Hemophilia of Georgia is one of the most respected bleeding disorders organizations in the world. We know that bleeding disorders affect the entire family. We know it takes more than medicine.

It Takes More than Medicine

ACCESS TO CARE

We work with Hemophilia Treatment Centers to improve health care. We give money to Hemophilia Treatment Centers in Georgia. We do this to make sure there are doctors and nurses who know how to care for people with bleeding disorders. This results in fewer bleeds and emergency room visits.

NURSING SERVICES

Our nurses visit client homes and provide infusion training and ongoing care. We teach schools, child care centers, and health care professionals about bleeding disorders. Our nurses are always ready to help.

SOCIAL WORK

Our social workers help families adjust to living with a bleeding disorder. Treating a bleeding disorder can cost a lot of money. We help many families pay medical and dental bills not covered by insurance. We provide Medic-Alert® bracelets and necklaces. We have scholarship programs for people who want to go to college. We are here to support families.

MEDICAL INFORMATION

Hemophilia of Georgia provides medical information to help people make decisions about their health.

- *The Hemophilia, von Willebrand Disease, and Platelet Disorders Handbook* is an online guide to living with a bleeding disorder.
- Hemophilia of Georgia publishes *Protocols for the Treatment of Hemophilia and von Willebrand Disease* to help inform doctors.
- Our hotline provides 24-hour doctor-to-doctor support.

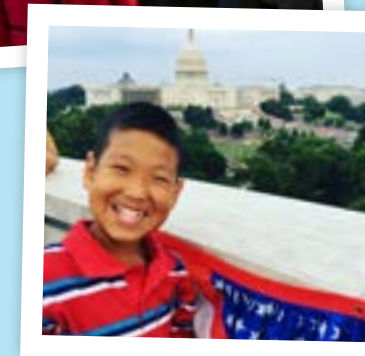

OUR PHARMACIES

Hemophilia of Georgia operates two pharmacies: Hemophilia of Georgia Pharmacy and Beacon Pharmacy (which serves Georgia Medicaid clients). Our pharmacies provide convenient home delivery of clotting factor and related products at competitive prices. 97% of our proceeds go into our programs and services. Every pharmacy order makes a difference.

COMMUNITY OUTREACH

Families can teach and support each other. We offer educational programs and activities to bring people together. We host family dinners across Georgia to give people a chance to connect. We have youth and family camps, adult events, and teen retreats to educate and get people involved.

ADVOCACY

The people we elect make decisions that impact our health. We have a story to tell. Sharing that story protects important government programs and services.
