

# Hemophilia of Georgia

*It takes more than medicine...*

An internationally recognized nonprofit dedicated to transforming lives in the bleeding disorder community by enhancing health and wellness through:

- Comprehensive Health Care & Clinical Services
- Support of Research & Advocacy
- Outstanding Educational Programs
- Meaningful Volunteer Opportunities
- Community Fundraising Events

## Comprehensive Health Care

Hemophilia of Georgia (HoG) is a premier provider of programs and services for people with hemophilia, von Willebrand Disease, and other bleeding disorders. The only agency of its kind in the state, HoG is dedicated to enhancing the health and wellness of the bleeding disorder community by providing excellence in comprehensive health care.

We work with Hemophilia Treatment Centers to improve health care for people with bleeding disorders. We give money to Hemophilia Treatment Centers in Georgia to ensure there are doctors and nurses who know how to care for people with bleeding disorders. This results in improved health outcomes and fewer bleeds and emergency room visits.

*It takes more than medicine...*

## Medical Information & Resources

Hemophilia of Georgia provides medical and other helpful information to assist people in making decisions about their health.

- Our website ([www.hog.org](http://www.hog.org)) and social media platforms offer a wealth of helpful information and news about upcoming events.
- Monthly e-newsletter: Sign-up to subscribe and stay up-to-date on the latest information right on our website's homepage.
- *The Hemophilia, von Willebrand Disease, and Platelet Disorders Handbook* is an online guide to living with a bleeding disorder.
- Hemophilia of Georgia publishes *Protocols for the Treatment of Hemophilia and von Willebrand Disease* to help inform doctors.
- Our hotline provides 24-hour doctor-to-doctor support.

## Our Pharmacies

Hemophilia of Georgia operates two pharmacies: Hemophilia of Georgia Pharmacy and Beacon Pharmacy (which serves Georgia Medicaid clients). Our pharmacists play a critical role in our patients' comprehensive care team. As a specialty pharmacy, we provide factor and other medications to treat your bleeding disorder, as well as home-infusion supplies at competitive prices. 95% of our proceeds go back to serving the community by providing programs and services. Every pharmacy order makes a difference.

*\*Dual Accreditation Status by URAC and the ACHC*

## Clinical Care & Services

### Nursing Services

Our nurses visit patients' homes and provide infusion training and ongoing care. We teach schools, child care centers, and health care professionals about bleeding disorders. Our nurses are always ready to help.

### Social Work

Our social workers help families adjust to living with a bleeding disorder. Treating a bleeding disorder can cost a lot of money. We help many families pay medical and dental bills not covered by insurance. We provide Medic-Alert® bracelets and necklaces. We have information about Hemophilia of Georgia's scholarship program for people who want to go to college. We are here to support families.

## Support of Research

Funding for research is a high priority for Hemophilia of Georgia. Since 2012, Hemophilia of Georgia has funded gene therapy research at two institutions: St. Jude Children's Research Hospital in Memphis, Tennessee and the Aflac Cancer and Blood Disorders Center at Emory University, Atlanta. Our contributions of over \$8 million go to help develop a cure for hemophilia (factor VIII, factor IX, and factor VII deficiencies).

## Advocacy

The people we elect make decisions that impact our health. We have a story to tell. Sharing that story protects important government programs and services. We work to ensure that legislation passed addresses the needs of people with bleeding disorders. We empower patients and their families to advocate for themselves in their daily lives with schools, employers, and healthcare providers.

## Outstanding Educational Programs

We offer exciting, educational programs and activities to bring people together. HoG hosts family dinners across Georgia to give people a chance to connect. We have youth and family camps, adult events, and teen retreats to educate and get people involved.

## Events & Meaningful Volunteer Opportunities

### Tee Off For Bleeding Disorders

Tee Off for Bleeding Disorders (formerly known as Hit 'Em for Hemophilia Golf Tournament ) is an annual golf tournament that raises money to find better treatments and a cure for hemophilia and other bleeding disorders. Over the years, treatment has greatly improved. We won't stop until we find a cure!

### Trot to Clot 5K Walk/Run

The Trot to Clot 5K Walk/Run is a fun, family-friendly event that raises money for youth and family programming, including Camp Wannaklot, Georgia's only camp dedicated to children and teens with bleeding disorders.

*Sponsorships are Available and are a Great Way to Support the Cause & Make a Difference!*

## Hops for Hemophilia

Hops for Hemophilia is a fall fundraiser to support bleeding disorder research. Held at a local brewery, the event is an afternoon full of beer, cocktails, fabulous food, music, and time spent meeting new people and bonding with friends. It's a great opportunity for those who support Georgia's bleeding disorder community to connect, while funding vital research for a cure.

## Meaningful Volunteer Opportunities

Hemophilia of Georgia has many meaningful ways to make an impact by volunteering and giving back to the community. We count on our volunteers to make a difference at our exciting fundraising events, our summer camp and family camps, bundling supplies for our pharmacy, and so much more! Contact us to learn more about volunteer opportunities today at [volunteer@hog.org](mailto:volunteer@hog.org).
